Power testing for Lotus Cup Europe Competitors

All UK entered drivers will be required to take their car to TDI for a power test to ensure it is under the power before they are allowed to compete in LCE.

Non UK based drivers *may* attend TDI (UK) for a FREE power test. However, due to the distance involved we are looking at options with Lotus to ensure all cars competing in LCE 2012 are power tested before they are permitted to race – this may be at a pre-season track day or at the first round.

Should a car enter any round without a valid power test LOTRDC reserve the right to penalize the car / driver in any way it deems fair.
